Re: Freedom of Information Act Request

Dear Ms Brannon:

Pursuant to the Freedom of Information Act, I hereby request copies of specific Bonneville Power Administration ("BPA") materials regarding BPA's facility determinations. I am providing additional detailed information to assist BPA in fully responding to a previous request that did not provide me with all the relevant information. I hope that the additional specificity provided in this letter can assist BPA in locating the information relevant to my request.

On December 15, 2006, I requested: "Copies of the documents related to each of BPA's facility determinations regarding New Large Single Loads under the BPA's power sales contract and/or the Northwest Power Act" and "Correspondence or documents between BPA and any utility requesting, determining, establishing, confirming, or otherwise regarding each of BPA's facility determinations."

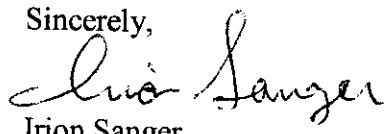

On February 12, 2007, I received a letter from BPA with some responsive documents. This included information regarding the facility determinations for HOYA Technologies LLC, Newmont Gold Mine/Praxair, KemaNord, and Plum Creek Lumber. I am not seeking any additional information regarding these facility determinations.

BPA has made other facility determinations and I am requesting copies of the documents related to these additional facility determinations. In the mid-1990s, BPA published: "A Manual for Determinations Concerning New Large Industrial Loads under the Northwest Electric Power Planning and Conservation Act and the BPA Utility Power Sales Contract." Section III of this document identifies a number of BPA facility determinations. The facility determinations mentioned in this BPA Manual, but not provided in the February 12, 2007 response, are Carnation, Union Carbide, Ponderay Paper, James River, Daishowa, and Pope & Talbot. It is not clear from the BPA Manual whether the facility determinations for James River or Pope & Talbot were granted or rejected.

Letter to Ms. Christy Brannon

Page 2

Please send the BPA facility determinations for Ponderay Paper, James River, Diashowa, and Pope & Talbot to the address listed above. I am willing to pay fees for this request up to a maximum of \$250. If you estimate the fees will exceed this number, please contact me for further authorization.

If you have any questions about this request, please feel free to call.
Thank you for your assistance.

Sincerely,

Irion Sanger
